Coach Allocco,

Tori absolutely loves the Excel camps as well as the amazing coaching she receives!

I absolutely agree with your statements about the problems with basketball today.

Tori has been playing basketball for years and has been instructed by countless coaches. I can tell you that your coaching has been the absolute best she has received.

It is definitely apparent that the fundamentals are so very important and yet they are no longer emphasized with most coaches today.

She has definitely been working and she looks forward to the next camp that we can get her into.

See you soon! Ginger
